Game review

Sync settings

CABINET · DESIGN SYSTEM V2

Built for reading the board

Pieces read first
Mid-tone dark squares so both piece colours stand out. Outlined white pieces, haloed black ones.

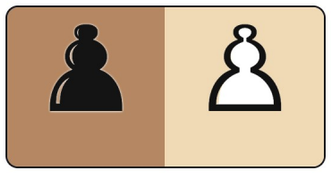

One accent, one meaning
Blue is "selected / you". Orange is "engine suggestion". Nothing else competes.

Dense, still scannable
52 px library rows, searchable and filterable, so hundreds of games stay manageable.

Piece contrast

Before · 1.6 : 1
Black piece on the old near-black square nearly disappears.

After · 5.5 : 1
Mid-tone dark square, halo on black, ink outline on white.

Board themes

Wood (default)
`#F0D9B5 / #B58863 · black piece 5.5 : 1`

Slate
`#DEE3E6 / #8CA2AD · black piece 6.5 : 1`

Green
`#EEEED2 / #769656 · black piece 5.2 : 1`

Every theme keeps dark squares in the mid-tone band. Last-move highlight is a yellow tint of each square, never a border.

Type

MiddleGameBk1
Fraunces 600 · 32 — line titles, wordmark only

Black to move
Inter 700 · 16 — state the learner must notice

Import PGN · Save line · Find a game
Inter 500–600 · 13–15 — UI and body

`11. Rc1 Qb4+ 12. Qd2 Qxd2+`
JetBrains Mono 600 · 15 — notation, evaluations (aligned columns)

Colour tokens

Contrast measured against the surface each token sits on (WCAG 2.x)

16.0 on paper
Ink
`#15171C`
Text, header bar

8.9 on white
Ink secondary
`#454A54`
Labels, body copy

5.6 on paper
Ink muted
`#5B616C`
Meta, hints

ground
Paper
`#F4F2EC`
App background

ground
Surface
`#FFFFFF`
Panels, inputs

decor
Border
`#D6D1C4`
Panel edges

decor
Control border
`#B9B2A2`
Inputs, buttons

white 5.9
Accent / you
`#1F5BD8`
Selection, current move, your arrows

graphic only
Suggestion
`#E8590C`
Engine candidate arrows

5.1 on white
Success
`#157F3B`
Synced, engine on
